Project Title: History of Printing in East Asia

I want this website to be multiple pages. I would like a navigation bar across the top. Images of plates, type cases, and prints.

- **Home Page/Introduction** – introduce basic what it is
- **Woodblock printing**
- **Movable type**
- **Comparison of woodblock and movable type in East Asia**
- **Mechanical presses**
- **Sources** – list of sources including the Wiki article and an images, possibly just as a bottom bar on the page
