

Site Review Notes

Creative Director: Lucy Chen

Designer: Eugenia Yoh

- It would be nice if the sources were links you could click on
- The pages load a little slowly so maybe try to see if you can get the images reduced quality
- Maybe make the grey type lighter so the black stands out more
- Instead of the interactive maybe you can click on the black type and it opens up a new page with a wiki article?
- Maybe try out a different idea with the nav if you have time. Like separating them out or making the border of the nav extend to the page ends
- The images seem really big at least for the dimensions of my computer so maybe try making a tad smaller
- The responsive design is really good
- Maybe add space at the bottom of gallery
